

MISSOURI RECOVERY SUPPORT SPECIALIST (MRSS)/CERTIFIED RECIPROCAL PEER RECOVERY (CRPR)

Code of Ethics

March 2018

Introduction

This document is the foundation for standards which will enable the credentialed professional to measure the propriety of his or her conduct in dealing with clients, other professionals and other members of the community. All professionals credentialed by MCB are expected to thoroughly familiarize themselves with the Code of Ethical Practice and Professional Conduct. The Board is committed to investigate and sanction those who fail to abide by its standards.

Note: All of the principles and ethical standards have been identified with a dual range of seriousness (except for a few that have only one option available). The intention of this guide is to assist the investigators and the Ethics Committee in applying an 'indication' of seriousness to the hearing panels so that a more standardized method of sanction can be used when applied. All agree that there may be "extenuating circumstances" that differentiate seriousness for violations, i.e., some violations may be a result of oversight or carelessness, when others are clearly intentional and without remorse. With any "SUBSTANTIATED VIOLATION", it is now an expectation that there will be an attached level of seriousness being suggested by the Investigators and the Committee. Those levels are;

S = Serious

VS = Very Serious

ES = Extremely Serious
