22. YPS – 20 hours total, 6 hours ethics
23. HRS – 20 hours total, 6 hours ethics

If this is the FIRST time renewing your credential and you have a question on how many contact hours you need to renew, refer to the letter the MCB sent you when you received your initial credential. *First time renewal hours are individualized based on the time of year in which you initially received your credential and other credentials held and therefore will vary between credentialed professionals.*

If you are not exactly sure when your credential is scheduled to expire and will need to be renewed, you can either look at mini certificate you received with your large certificate, or this information is always available to you on the MCB website by looking yourself up using the “Professional Search” function on the homepage.

After renewing the first time, this list represents the number of hours that will be needed to continue renewing your credential every other year. MAADC II(2) and MPS are the only 2 credentials that renew annually. Those hold an MAADC I must upgrade to a higher-level credential or reapply for a new MAADC I before their expiration date.

Ethics hours are no longer required to be live. All training can be obtained in the following formats: live, in-service, online, self-study as long as you have a certificate or sign-in sheet that gives the number of hours the training is valued as and the date that you received it. All training for a renewal must have taken place during the current renewal cycle for you credential.
